

## Parents.java

```
1
2 public class Parents {
3
4     public static void main(String[] args) {
5         // TODO Auto-generated method stub
6
7         // Normal Print
8
9         System.out.println("I navigate to home page");
10
11         Methods m=new Methods();
12
13
14         System.out.println(m.validateheader());
15
16
17         //Classobject.methodename
18     }
19 }
20
21
22 }
23
```
